

Introducing PermaPlate's **ANTI-MICROBIAL SOLUTION**

KILLS
99.9%

HARMFUL MICROBES

EPA Registration #90856-4-91691

Keep the germs and viruses away...

When it comes to harmful microbes (virus, bacteria, mold, mildew, algae and yeast), BioPledge AMP is an EPA-registered antimicrobial that provides a quick killing action, molecularly bonds to treated surfaces and keeps on killing for up to 30 days*.

When BioPledge AMP is applied in your vehicle, it instantly annihilates microbes and applies a durable antimicrobial barrier*. BioPledge AMP remains active after it is dry. BioPledge AMP provides instant clean, instant freshness and combats residual odors on treated surfaces without using caustic chemicals or scented masking agents. Its treatment removes both organic and inorganic odors from the air, carpets, upholstery, and surfaces.

Benefits include:

Kills 99.9% of bacteria and harmful microbes

Forms a protective shield that delays growth of harmful microbes on interior surfaces

Instantly eliminates odor molecules in the air and that have penetrated or rested on surfaces.
